# Techmark, Inc.

*technology from the ground up*

**NEW!**

# Alarm Pro

## Make your storage work for you.

**Alarm Pro contacts you when your storage environment moves outside of your set parameters. A text message or email notification will be sent to your wireless device identifying the alarm type.**

## Monitor your storage while you're away

*Notifications include temperature, RH, CO2, fan failure and communication errors*
*Alarm can contact multiple users: 4 tiers of alarms can be customized to fit your operations needs*
*Accountability: system maintains history of alarms*
*Real time storage monitoring; alarm system works 24/7 and will alert you and your staff to storage changes night or day*

# Protect your investment

**Alarm Pro is compatible with Fancom Controllers.**
**Speak with a Techmark team member for more information.**
