## Techmark's Handheld Kit

Introducing the NEW Handheld Impact Recording Device Interface. The user friendly design allows the retrieval of precious data from the Techmark Impact Recording Device in the field and on the Go!

### Techmark's Handheld Kit includes:

**\*Compaq iPAQ Handheld 64MB/SDRAM, 32MB Flash ROM**

Compaq handheld computer with color display. Microsoft Mobile 5.0 operating system and ActiveSync Software. 206-MHz Intel StrongARM SA-1110 32-bit Micro-Processor. Built-in voice recorder. Interface Cradle with USD/serial cable. Rechargeable Battery with 100-240vac Power Supply.

**\*SD Memory Card-64MB**

Allows Techmark's PCIRD Handheld Software and Data to be securely stored instantly and transported to another Compaq iPAQ.

**\*IRD Interface Cable**

Customized Interface Cable allows the Compaq iPAQ to directly connect to the IRD for activation, data collection and data analysis of plots and graphs without a personal computer.

**\*Rugged Case**

IP54 Rugged Case allows the Compaq iPAQ to be completely self-powered and water resistant suitable for use in farm, factory and packinghouse environments. Access to all connections and display without removing unit from case.

**\*USB/Serial Cable Interface**

Allows the Compaq iPAQ to directly connect to your personal computer without the supplied cradle.

**\*Stylus 3-Pack and 3-Cover Pack**

Extra Styluses for convenience...and extra protective covers for the iPAQ's rugged case.
