

**TECHMARK, INC**

*Technology from the ground up*

You are invited to a **Storage Academy** with Techmark.  
This seminar will include two sections:

Session 1: Storage Fundamentals? Todd Forbush

Session 2: Operation of the 755 using Stor-Trac and T-Trac Josh Brood

The training seminar will take place at the Crowne Plaza, Grand Rapids Airport from 10:30am -12:30 pm. We picked this date and time to take advantage of the industry coming to Grand Rapids for the 2019 Winter Potato Conference. Our seminar will not interfere with attending any of the conference and since you're coming to Grand Rapids anyway you can take advantage of the training. Our meeting is right before the Bus trips scheduled on Wed, Feb 13th.

This seminar would be great for any of your storage management team. You are welcome to send as many participants as you would like from your farm as long as we have spaces open. Our conference room will accommodate the first 35 who respond to [techmark@techmark-inc.com](mailto:techmark@techmark-inc.com) with an RSVP of intention to attend. There is no cost!

**Lunch Provided**

**Date: Wed, Feb 13th Time: 10:30-12:30pm**

**Place: Same Crowne Plaza as the 2018 Winter Potato Conference**

Please RSVP to [techmark@techmark-inc.com](mailto:techmark@techmark-inc.com). It will be helpful to include names and emails so we can send a reminder and the room location at the Holiday Inn. Questions? Call Josh or Patrick at 517-322-0250 or email us at [techmark@techmark-inc.com](mailto:techmark@techmark-inc.com)

**We hope to see you there!**
