

# Stor-Trac

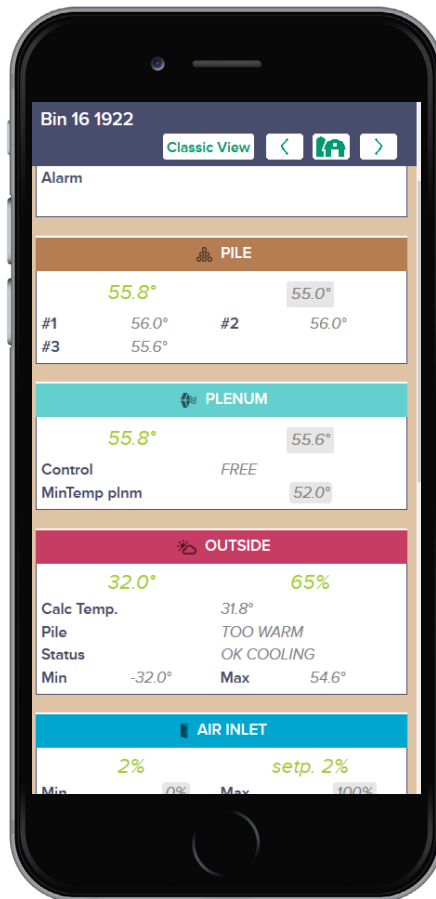

Review potato quality and make changes to storage ventilation settings  
- it's all at your fingertips!

## Responsive Design

Responsive design adapts to all devices regardless of screen size. The interface will adjust size and layout to ensure a best fit user experience.

## Web Browser Interface

The cloud interface allows the user to choose farm, tile or classic view for control units inside your bins. Check quality and make changes to bin ventilation systems wherever you are.

## Accessibility

Multiple users are able to view bin control data at the same time. Cloud based access maximizes accessibility and collaboration.

## Integration of KPI's

Stor-Trac populates all of your important storage metrics into one place where you can analyze, understand and adjust for storage quality

Supports all device platforms including iOS, Android and Windows

Stor-Trac is the remote software interface for your Techmark storage control systems.  
Call us at 517-322-0250 to discuss Stor-Trac
